

L&T Expands Capacity with New Electrical & Automation Facility in Vadodara

Mumbai, July 12, 2012: Larsen & Toubro today inaugurated its manufacturing facility for switchgear products at Vadodara, on an 18-acre plot adjacent to L&T Knowledge City. This is a capacity expansion initiative for the business of L&

The manufacturing facility has applied IRU ¶*UHHQ)DFWRU\· FHUWLILFDWLRQ Indian Green Building Council (IGBC) norms and audited for the ISO 9001 certification. All material used in the construction are green-certified and eco-friendly. Environment management measures include tree plantation, rain water harvesting and zero discharge of water. The new facility makes optimum utilization of natural resources of energy with sun light being effectively used to avoid any electric lighting on the shop floor during the day. Wet FDVS system has been installed to maintain a friendly temperature inside the factory.
