

L&T Construction Wins Water & Waste-Water Infrastructure Orders Valued 1509 Crores

The Water & Effluent Treatment Strategic Business Group of L&T Construction has won new water and waste-water infrastructure orders worth 1509 Crores in September 2015.

The Water & Effluent Treatment Strategic Business Group (SBG) has secured a water supply order from the Government of Telangana for the Telangana Drinking Water Supply Project. The project scope includes construction of a water treatment plant, 2835 km of pipeline network, twenty-five major water storage reservoirs and other associated works to meet the water needs of various habitations of the Adilabad district in the State.

In the Rajasthan Urban Infrastructure Development Project (RUIDP), a turnkey order has been received from the Government of Rajasthan for waste water infrastructure works at Pali, Rajasthan. Funded by the Asian Development Bank (ADB), the project scope includes construction of a waste water treatment plant, waste water network and allied works in addition to works for the reduction of non-revenue water.

The Water & Effluent Treatment Strategic Business Group (SBG) caters to turnkey infrastructure projects including water treatment plants, water supply & distribution networks, desalination plants, water management systems, waste water networks, waste water treatment plants, complete industrial water solutions covering water treatment, effluent treatment, de-mineralization, water reuse and lift irrigation systems.
