L&T Construction Signs Contract with Maharashtra Government for Nagpur Smart City Project

Mumbai/Nagpur, Oct 20, 2016: L

Communications Business

Unit announced today the signing of the formal contract with the Department of Information & Technology, Maharashtra Government, under which Nagpur will be converted into the -scale integrated Smart City.

The scope of work will cover laying of 1200 km of optical fiber network backbone, creating 136 city wi-fi hotspots at key locations, establishing 100 digital interactive kiosks and developing city surveillance systems with 3800 IP based cameras. Further, as an avant-garde endeavor, the city has identified a strip of approximately six km (from Japanese Garden Square to Orange City & IOT solutions

like smart lighting, smart transport, smart parking, smart bins, etc.

We are

significant progress across several major Indian

cities by creating smart solutions. Beginning with the development of surveillance and intelligent traffic management systems for the Government of Gujarat in Ahmedabad, Gandhinagar and Vadodara, the business has since executed the smart city project in Jaipur and recently launched , Mumbai City Surveillance, for the Government of

Maharashtra. Several other smart, safe and communication projects are also underway across various states.

Smart World & Communication:

The business Unit offers end-to-end solutions comprising Security Solutions, Communication Network and Telecom Infrastructure and Smart Infrastructure as a Master Systems Integrator in collaboration with other businesses within the L&T Group - L&T Infotech, L&T Electrical & Automation IC and L&T Technology Services.
