L&T Wins ` 5689 Crore Contract for 2 x 660 MW Supercritical Power Plant in Rajasthan

First-of-its-kind - NLQG (3 & 2 UGHU IURP 6WDWH 8WLQW) \$IILUPV Execution of Mega Power Projects

Mumbai, April 01, 2013 : L&T has secured an order valued at ` 5689 Crore from the Rajasthan Rajya Vidyut Utpadan Nigam Ltd for setting up a 2 x 660 MW Supercritical Thermal Power Project on a complete EPC (Engineering Procurement & Construction) basis.

The order involves design, engineering, manufacture, supply, erection and commissioning of two coal-fired thermal units of 660 MW each with supercritical parameters at Chhabra in Baran District in Rajasthan.

The order comes as L&T enters the advanced execution phase of several large supercritical thermal power projects. These include complete projects being built on an EPC basis as well as boiler-turbine-generator units and Balance-of-Plant packages. The contract was won following international competitive bidding, involving several bidders. The project has a stringent completion schedule of 42 months for Unit 1 and 45 months for Unit 2.

With this contract, L&T now has orders for supply and installation of 26 Supercritical Steam Generators and Steam Turbine Generators of 660 MW, 700 MW and 800MW.

L&T has integrated facilities for power plant equipment. The Company has joint ventures with global leader Mitsubishi Heavy Industries, Japan for the manufacture of supercritical boilers and turbines. In addition, the facilities at Hazira also manufacture critical equipment and components including high pressure piping, coal pulverizers, fans, heaters, condensers, Electro Static Precipitator
