

Sri Lanka and from within India.

An EPC order has been bagged from the National Water Supply & Drainage Board for the execution of the Kundasale Haragama water supply project in Sri Lanka's Kandy district.

Funded by Exim Bank of India and Bank of Ceylon and envisaged to provide

and associated electrical, mechanical & instrumentation works. The project also involves automation including measurement of input & output water quantity through suitable SCADA & other instrumentation works.

The order is in sync with the business's strategy to expand into select SAARC and other international markets.

The business has secured an order from BPCL for ground improvement of tank foundation area, using stone columns of 800mm dia and around 1.6 lakh RM, at Krishnapatnam, Andhra Pradesh.

The business has secured another order from CMRL for construction of balance works of cut and cover section in the Phase 1 extension works.

Various add-on orders have been secured across different businesses for some of their existing projects.

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 20 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled it
