

L&T Flags-off First Set of Piperack Modules to + 3 & / . V 9 L V D N K 5 H I L Q H U \

Kattupalli (Chennai, Tamil Nadu), August 30, 2021 : The Hydrocarbon arm of Larsen & Toubro, flagged-off the first set of piperack modules for , Q G L n Residue Upgradation Facility (RUF) for + 3 & / . V 9 L J D J 5 H I L Q H U \

This facility will enable HPCL to convert the heaviest oils into high -quality Euro 6 diesel while simultaneously eliminating fuel oil production, as well as increasing feedstock and product fl exibility . This facility, licensed by Chevron Lummus Global (CLG) is being built by L&T Hydrocarbon Engineering (LTHE) under an EPC Contract.

Also, a large-scale modularization concept is being implemented on this project, which is the first of its kind for a refinery project in India. There are total of 30 modules which will be fabricated and assembled L Q / 7 . V e - M D A M fabrication facility at Kattupalli , near Chennai. These will be transported to Vizag using sea route. The first lot of these piperack modules were flagged-off in the presence of senior dignitaries from HPCL, EIL and L&T.

Commenting on the occasion, Mr. Subramanian Sarma, Whole-time Director & Sr . EVP (Energy), Larsen & Toubro and CEO & MD, LTHE V D L G T 'has built significant modularization capabilities over the years and have been
