

L&T-Cloudfiniti Onboards Its First Major Customer

Client rents 6 MW IT Load capacity for 10 years

Mumbai, December 12, 2024: L&T-Cloudfiniti, the Data Centre business initiative of Larsen & Toubro, has onboarded its first major customer at the state-of-the-art hyperscale data centre located in Sriperumbudur near Chennai.

Cloudfiniti's Sriperumbudur Data Centre has a built-in capacity of 30 MW, and of this, 12 MW colocation-ready capacity is live across two floors. The client, a leading cloud service provider has rented as much as 6 MW IT Load capacity, consisting of

"This deal marks the beginning of many such collaborations and our commitment to delivering world-class colocation and cloud services across the spectrum. In the days to come, we are confident of redefining India's data centre landscape with our fast scalable and reliable solutions," said Seema Ambekar, CEO, L&T-Cloudfiniti.

About L&T-Cloudfiniti

L&T-Cloudfiniti is a newly incubated new-age business subsidiary of Larsen & Toubro. It offers end-to-end solutions in data centre, multi-cloud services, network & data security, and application integration with single point responsibility. As on today, Cloudfiniti has two live data centres - one at Sriperumbudur near Chennai and another at Navi Mumbai.

Background

Larsen & Toubro is a USD 27 billion Indian multinational
